# Bulletin Board

As a group we designed the concepts for six different bulletin boards. We then analyzed which best portrayed our message, was most practical for the audience, and which would be most interesting and visually pleasing. We then collected the various supplies and put up the bulletin board in the after school room of Rock Canyon Elementary school. Our goal was to educate the students, grades K-6, on the basics of MyPlate as it had recently replaced MyPyramid.

# MyPlate

Eat Incredible to  
be incredible!
